AgBb

The diagram consists of several nested and overlapping rectangles. At the top left, a small light blue square is labeled 'AB' in dark blue. This square is contained within a larger light blue rectangle. This larger rectangle is further enclosed by a yellow border. To the right of the 'AB' square, within the same light blue rectangle, is a larger, empty light blue rectangle. Below the yellow-bordered rectangle is a pink rectangle. The entire composition is set against a light gray background.
